Labrynth is a professional services firm specializing in Business and Technology Consulting, Project Management, and Call Center Operations.

Labrynth's consulting services are comprised of traditional offerings such as project management, organizational assessments, and implementation management. In addition, Labrynth provides unique offerings, such as strategic visioning and initiative prioritization, which are critical to succeed in today's changing business landscape.

Labrynth offers professional services related to call center and customer contact environments with experience in both customer care and collections operations. We have the ability to perform full-scale systems and functional process audits that provide recommendations for improving current environments.
